

SAP Testing Services

Are you looking to make the transition to S/4HANA? Want to reduce your SAP solution Time-To-Market with fewer risk releases and less production costs?

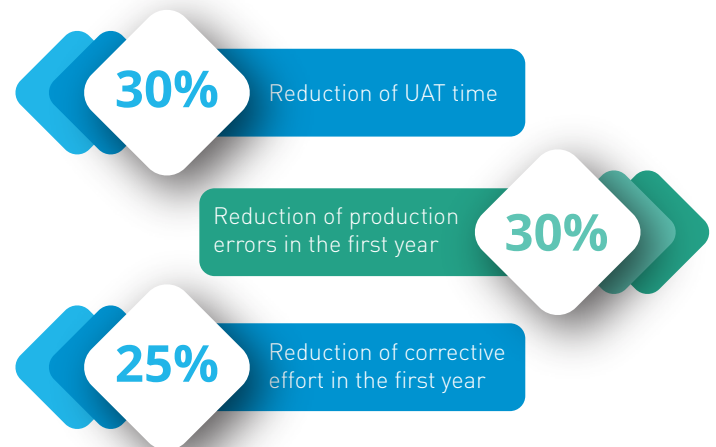

We can make this path together by using proven **testing methodologies** in combination with our experienced and **multidisciplinary QM SAP teams**. We can support you from the first steps of the **Solution Blueprint**, moving to the requirements or the user **story refinement** stages until the **go-live phase**.

Value Proposition

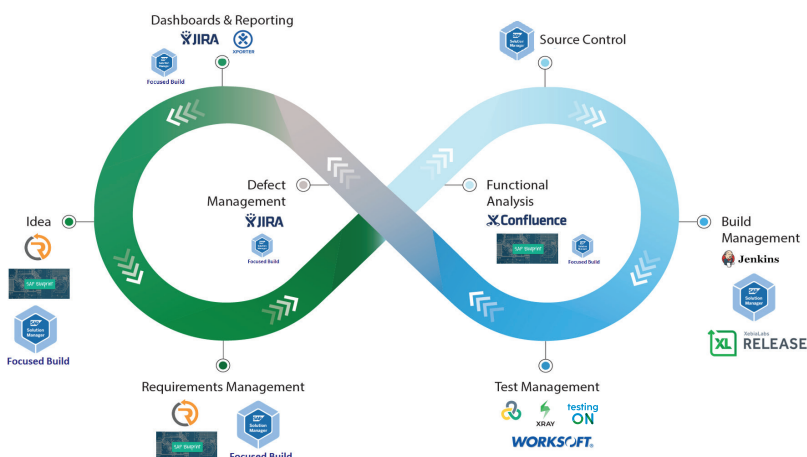

Successful organizations know that testing SAP is not an option; it's a priority, as it handles so many business-critical operations.

At Noesis, we can guarantee the consistency of your **Integration Engine** (ODATA / IDOC / Proxy / RFC / BAPI) and safely benchmark your **SAP Authorization Trace & Checks**.

Whether **On-premise** or **SAP Cloud Solutions**, we can certify the quality of your Financial (FI and CO), CRM, HCM, Logistics Chain processes, and more, through manual functional tests and create an automation platform using a diverse set of technologies.

Noesis SAP Framework

With this offer you will

- Accelerate time-to-market
- Significantly reduce UAT Time
- Reduce errors in production
- Reduce effort in test execution
- Increase test coverage with automation
- Reduce maintenance effort and costs
